UNANSWERED PETITION FILED ON DECEMBER 10, 2003

MAILSTOP: PETITIONS

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Sir:

A Petition Pursuant to 37 C.F.R. § 1.59 and MPEP § 724.05 to Expunge Copies
of Papers from Application File was filed in the above-identified application on
December 10, 2003 (see Attachment A).

In accordance with a notice from the USPTO (see Attachment B), an e-mail alert
was sent to the Office of Petitions on May 11, 2004 (see Attachment C). As of May 18,
2004, PAIR indicated that the petition remained unanswered (see Attachment D) and a
Status Inquiry Regarding unanswered Petition was filed on May 19, 2004 (see
Attachment E).

As of November 5, 2004, the petition remains unanswered. In view, thereof, the
undersigned respectfully requests to be advised of the status of the Petition Pursuant

to 37 C.F.R. § 1.59 and MPEP § 724.05 to Expunge Copies of Papers from Application
File filed on December 10, 2003, in the above-identified application.

Applicants note that the Application was allowed on September 24, 2004, and
this Status Inquiry is necessitated by the USPTO's unreasonable delay in responding
to the Petition originally filed in December 10, 2003. Therefore, Applicants should not
be charged with any loss of Patent Term Adjustment as a result of the filing of this
Status Inquiry.

TO EXPUNGE INFORMATION FROM APPLICATION FILE**

MAILSTOP: PETITIONS

ATTENTION: NANCY JOHNSON, ESQ.

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Sir:

The assignee of the above-named application hereby petitions under the provisions of 37 C.F.R. § 1.59(b) and MPEP § 724.05(II) to expunge from the file of the subject application the certified copies of Japanese Patent Application Nos. JP2001-0008000 and JP2001-374801 which were mistakenly and unintentionally filed in the above-identified application on February 1, 2002. A separate letter submitting the appropriate fee and/or authorizing the charging of our Deposit Account No. 19-4880 for the appropriate fee as required by 37 C.F.R. § 1.17(i) is submitted herewith in duplicate.

The facts supporting the instant petition are as follows:

1. On February 1, 2002, Applicants filed a Submission of Priority Documents with certified copies of several Japanese Applications, including, *inter alia*, Application Nos. JP 2001-000800 and JP 2001-374801.

2. Japanese Application Nos. JP 2001-000800 and JP 2001-374801 are not listed on the Declaration or other application papers as priority applications for the above-identified application. See the attached copy of the Declaration filed on December 27, 2001 (Attachment A) and the attached copy of the Transmittal letter submitted with the Application papers on December 27, 2001 (Attachment B).

3. Japanese Application Nos. JP 2001-000800 and JP 2001-374801 were mistakenly and unintentionally filed in the present application file instead of in the correct file.

4. Applicants respectfully request the return of the certified copies of Japanese Application Nos. JP 2001-000800 and JP 2001-374801, so that the certified copies may be properly submitted in the correct application file to perfect Applicants' claim for priority in co-pending Application No. 10/034,607, prior to payment of the issue fee therefore.

5. Applicants commit to retain copies of the requested documents for the period of any patent with regard to which the documents were submitted.

6. The documents to be returned are not material information to the above-identified application under 37 C.F.R. § 1.56.

7. The facts set forth herein clearly establish that the requested certified copies of Japanese Application Nos. JP 2001-000800 and JP 2001-374801 were submitted in the wrong application and therefore, a decision on the petition should not be held in abeyance.

8. This petition is being submitted by, or on behalf of, the party in interest who originally submitted the information.

9. The required fee as set forth in 37 C.F.R. § 1.17(h) is attached.

Applicants respectfully submit that the facts set forth herein sufficiently establish that the return of the requested information is appropriate. Thus, waiver of the requirements to provide a statement that the failure to obtain return of the information would cause irreparable harm to the party who submitted the information or to the party in interest on whose behalf the information was submitted, and that the information has not been made public, as set forth in MPEP 724.05(II)(B) and 724.05(II)(C), respectively, is respectfully requested.

Alternatively, Applicants respectfully request relief, under 37 C.F.R. § 1.181 and 1.182 to the extent that the rules do not specifically provide for the requested relief and/or under 37 C.F.R. § 1.183, to the extent suspension of the rules is required by justice.

The USPTO is directed and authorized to charge all required fees to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account. A duplicate copy of this sheet is enclosed.

Respectfully submitted,

REQUEST FOR ALERT CONCERNING SUBMITTED PETITIONS

Background

On July 1, 2003, the Office instituted the Image File Wrapper (IFW) system to automate the prosecution of patent applications. All patent application documents that are part of the official record, including petitions, are converted to electronic form and stored in the electronic IFW.

When the IFW system was first implemented the system would only send a processing message to one organization within the USPTO even where a submission included matters treated by different areas of the Office. For example, if a submission included both an amendment and a petition of the type handled by the Office of Petitions (see MPEP 1002.02(b)), the IFW system would send a processing message to the Technology Center but not to the Office of Petitions. Improved software and internal procedures will soon create messages to alert both the Office of Petitions and the other organization handling the other documents, so the full submission will be correctly processed. However, there are a number of petitions of the type handled by the Office of Petitions for which the IFW system has not sent a processing message to the Office of Petitions.

To help assure prompt and proper service to the public, the Office is requesting applicants to assist the Office to process petitions by sending an e-mail alert to the office, in accordance with the following temporary procedures.

Petitions Types Affected:

Petitions that are decided by the Office of the Deputy Commissioner for Patent Examination Policy (listed in MPEP § 1002.02(b)), including the Office of Patent Legal Administration (OPLA) and the Office of Petitions.

Examples of the most common petitions of these types are petitions to revive applications that are abandoned due to failure to respond to an Office action, petitions to withdraw an application from issue, petitions for patent term adjustments. Consult MPEP § 1002.02(b) for the full list of affected petitions.

Petitions Types Not Affected:

Petitions for other offices within the USPTO, for example those decided by the Technology Centers (listed in MPEP § 1002.02(c)) or the Office of Publications (listed in MPEP § 1002.02(r)), **are not part of this program**, and applicants should not send an e-mail alert to the Office pursuant to this notice.

Temporary Procedures for an alert concerning submitted petitions:

1. Confirm that a submitted petition filed **after June 30, 2003** has not been answered, either by checking your records or checking the postings on the Office's Patent Application Information Retrieval (PAIR) system. Applicants unfamiliar with the PAIR system may access information about it on the Office's web site: www.uspto.gov/eac.

2. If a petition is filed, or has been filed **after June 30, 2003**, of the types listed in MPEP § 1002.02(b), and applicant has not received a response to the petition or seen a response posted on the PAIR system, applicant is invited to send an e-mail alert to petitions@uspto.gov indicating the following information:
 - > application number of the application in which the petition(s) was filed
 - > date of petition(s)
 - > regulation under which petition(s) was filed, if known:
(e.g. 37CFR1.137(b), 37CFR1.183, etc.)
3. Only the information described in paragraph 2 should be provided in the e-mail. Other information will not be considered. No attachments may be added to the e-mail. The e-mail will not be acknowledged or answered.
4. This e-mail alert will NOT be considered a communication in the file under 37CFR1.4(a)(2) and will not be entered into the file contents. The alert is NOT considered a status inquiry.
5. A single e-mail alert may include information on more than one unanswered petition. However, do not send in more than one alert per unanswered petition.

Example [e-mail addressed to petitions@uspto.gov]

The following petitions have not been answered to date:

Application No.	Petition Filed:	Reg:
10/111111	October 3, 2003	37 CFR 1.137(b)
10/222222	December 5, 2003	37 CFR 1.183

For Further Information Contact

Questions or status inquiries concerning specific petitions should be directed to Office of Petitions Help Desk or by checking the status of the application on the Private PAIR system (see www.uspto.gov/ebc). Questions on the form of the e-mail should be directed to the EFS Help Desk, at (703) 305-3028.
